DIRECTOR’S REPORT

Saratoga County Sewer District #1 Take Over of Sewer Operation

The County was not able to get contract to WWSA before 12/31/24 as they had 150 contracts to get out before the end of the year. They reached out today that they should have ours done shortly. For ease in transitioning finances, the next best transfer date would be at the end of the 1st quarter.

Dennis Land Development

30 years ago, Dennis Land Development built a small townhome subdivision at Whispering Pines Road. In the back of the subdivision, they left a piece of land to provide sewer service behind each house, so in the future if sewer was available, they could hook up. They haven't paid property taxes on this piece of land in a long time. The County just called the Building Inspector today to see if the Town would have any use for the property. To keep the property for its original intent, the owner is willing to turn it over to WWSA. Any associated costs would come from the Sewer Fund. The property would then either have an easement provided to the Saratoga County Sewer District or be included with the transfer of sewer operations when that occurs.

Financial Software

WWSA currently uses a product called Fundbalance for managing Accounts Payable, Payroll, and General Ledger. Fundbalance was purchased by Tyler Technologies and they continued to support Fundbalance for a while. However, they alerted us that the Fundbalance will be phased out by the end of 2025 and we will need to transition to a new program. Last year, we paid \$3,400 for support on the Fundbalance software. Tyler Technologies has sent a quote to transfer our system onto their new platform. It is very expensive and likely has more functions than we need. It would be \$12,000 per year, plus one-time set up fees that include 220 hours of professional services for training. The Town switched to Edmunds BAS. We will be getting a quote from BAS as well.

High Ground Water at Furlong Hills Sewer Pump Station

At the Furlong Hills sewer pump station, the water table is very high. We installed a permanent drain, and it is flowing well to the drainage area next door.

Eddie Road Water Loop Progress

The contractor has submitted information to two contractors regarding the microtunneling to cross the railroad tracks. We expect to hear back soon about the estimated fees. The extension of Forest Grove will be completed first, so there will be water available soon on both sides of the railroad tracks regardless, however the service lines will be dead ends pending the connection under the railroad between the 2 ends.

Internet Meter Reading System Update

No new information to report.

Online and Auto Bill Pay Update

No major issues with online and Auto Bill Pay.

ADJOURNMENT

There being no further business brought before the Authority's Board, at 4:38 p.m. on a motion by Secretary Huestis and seconded by Vice Chairman Duffy, Chairman MacDougall adjourned the meeting with all in favor.
